

Table of Contents

Preface by the President of Anhalt University of Applied Sciences	V
Foreword	VII
Introduction	1
<i>Steinitz, C.:</i> Landscape Architecture into the 21st Century – Methods for Digital Techniques.....	2
Geo Design	27
<i>Flaxman, M.:</i> Fundamentals of Geodesign	28
<i>Schaller, J. and Mattos, C.:</i> ArcGIS ModelBuilder Applications for Landscape Development Planning in the Region of Munich, Bavaria	42
Landscape Information Models (LIMs)	53
<i>Miller, P. A., Bakar, S. A. and Liu, S.:</i> An Exploratory Study of the Use Google Earth to Communicate Geospatial Information for Scenic Assessment and Management – Examples from a Study of Claytor Lake in Southwest Virginia.....	54
<i>Pietsch, M., Heins, M., Buhmann, E. and Schultze, C.:</i> Object-based, Process-oriented, Conceptual Landscape Models – A Chance for Standardizing Landscape Planning Procedures in the Context of Road Planning Projects.....	62
<i>Rekittke, J. and Paar, P.:</i> Grassroots GIS – Digital Outdoor Designing Where the Streets Have No Name.....	69
Knowledge-Based Landscape Architecture	79
<i>Bastani, H.:</i> Adding Evaluation to the Landscape Design Development Phase by the Capability of Parametric Modeling	80
<i>Breskvar Žaucer, L., Zupan, B. and Golobič, M.:</i> Formal Interpretation of Preference Maps – A Data Mining Approach.....	87

<i>Golobic, M. and Cof, A.:</i> Knowledge Support for Planning in Transition – Spatial Vulnerability Analysis for Canton Sarajevo.....	99
<i>Formosa, S.:</i> Maltese Criminological Landscapes – A Spatio-Temporal Case Where Physical and Social Worlds Meet.....	110
<i>Heins, M., Kretzler, E. and Kircher, W.:</i> Green Spaces 3.0 – Measures, Strategies and Data Architecture to Link Knowledge and Information Management in the Field of Planting Design for the Development of Knowledge-based Software Systems.....	125
<i>Labędz, P., Ozimek, A. and Ozimek, P.:</i> Box-counting Dimension in Landscape Photographs Analyses.....	138
<i>Eyenard, C. and Martiarena, M.:</i> Virtual-Representation of Native Species from Central Argentina.....	148
<i>Penko Seidl, S., Cof, A., Breskvar Žaucer, L. and Marušič, I.:</i> The Problems of Large Protected Areas in the Process of Planning – A Case Study in the Municipality Ig, Slovenia.....	154
New Media Applications in Landscape Design.....	163
<i>Speed, C. and Southern, J.:</i> Handscapes – Reflecting upon the Use of Locative Media to Explore Landscapes.....	164
<i>Steinhilp, W-M. and Kias, U.:</i> Comparison of 3-D Printing Techniques Usable in Digital Landscape Architecture.....	173
<i>Morgan, E., Gill, L., Lange, E. and Romano, D.:</i> Rapid Prototyping of Urban River Corridors Using 3D Interactive, Real-time Graphics.....	182
<i>Stendel, D. and Wolff, M.:</i> Autostereoscopic 3D-Geovisualization of Crime Scene Allocations.....	191
<i>Stendel, D.:</i> Evaluation of Autostereoscopic Visualization of Landscape.....	200
Landscape Visualization and Communication of Planning.....	213
<i>Gill, L., Lange, E., Morgan, E. and Romano, D.:</i> Interactive 3D Landscape Assessment Models.....	214
<i>Rekittke, J. and Paar, P.:</i> Dirty Imagery – The Challenge of Inconvenient Reality in 3D Landscape Representations.....	221

<i>Engel, J. and Döllner, J.:</i> Approaches for Visual 3D Analysis for Digital Landscapes and Its Applications.....	231
<i>Kramer, H., van Lammeren, R. and Ruyten, F.:</i> Favoring Four Dimensions in Landscape Design	240
<i>Lindquist, M.:</i> Affordable Immersion Revisited – A Proposal for a Simple Immersive Visualization Environment (SIVE-Lab).....	253
<i>Lovett, A., Carvalho Ribeiro, S., Van Berkel, D., Verburg, P. and Firmino, A.:</i> Representing and Communicating Rural Futures through 3D Landscape Visualizations – Experiences from the RUFUS Project.....	261
<i>Mach, R.:</i> Serious Gaming? – Raising Awareness for Retention Measures and Flood Disasters....	269
<i>Stock, C., Bishop, I. D., Sharma, S. and Chen, H.:</i> Online Collaboration in Australian Virtual Landscapes.....	279
<i>Zehner, B.:</i> Interactive Wind Park Planning in a Visualization Center – Giving Control to the User.....	287
Visual Landscape Analysis	295
<i>Bishop, I. D., Smith, E., Williams, K. and Ford, R.:</i> Scenario Based Evaluation of Landscape Futures – Tools for Development, Communication and Assessment	296
<i>Jombach, S., Kollányi, L., Sallay, Á., Csemez, A., Egyed, A. and Tatai, Z.:</i> ViLaCORDEM – Special Processing of Orthophotographs in Landscape Change Visualisation.....	313
<i>Jombach, S., Drexlar, D. and Sallay, Á.:</i> Using GIS for Visibility Assessment of a Wind Farm in Perenye, Hungary	322
<i>Joye, R., De Múelenaere, S., Heyde, S., Verbeken, J. and Libbrecht, H.:</i> On the Applicability of Digital Visualization and Analysis Methods in the Context of Historic Landscape Research.....	331
Sustainable Landscape Modeling and Design	341
<i>Blaschke, T.:</i> Sustainable Landscapes – Regionalization of Resources, Potentials and Demands.....	342
<i>Carvalho Ribeiro, S. M. and Lovett, A.:</i> Integrating Public Uses and Preferences for Forests into Sustainable Landscape Modelling: A Case Study in Northern Portugal	351

<i>Wissen Hayek, U., Halatsch, J., Kunze, A., Schmitt, G. and Grêt-Regamey, A.:</i> Integrating Natural Resource Indicators into Procedural Visualisation for Sustainable Urban Green Space Design	361
<i>Taeger, S.:</i> GIS and Hydrological Models as Tools for Habitat Modelling in Alluvial Plains.....	370
Digital Landscape Design for the Mediterranean	379
<i>Schmidt, R.:</i> Contemporary Landscape Architecture – Parks and Open Space, Duties and Responsibilities	380
<i>Bonazountas, M., Schaller, J., Martirano, G., Mattos, C., Roumeliotis, L. and Kallidromitou, D.:</i> “MedIsolae-3D” – Mediterranean Islands SDI and 3D Aerial Web-Navigation	393
<i>Buhmann, E., Pietsch, M., Langenhaun, D., Chougule, S. and Paar, P.:</i> Visualizing Boathouses of Dwejra Bay in Gozo, Malta for Access Through WebGIS Applications	406
<i>Conchin, S., Agius, C., Formosa, S. and Rizzo Naudi, A.:</i> Does Visualisation of Digital Landscapes Serve Itself? How Topographic, Planning, Environmental and Other Thematic Information is Integrated and Disseminated Via Web GIS	415
<i>Gauci, R.:</i> Responsive Landscape	433
<i>Lameiras, J. M., Jørgensen, I. and Marques, P. F.:</i> Digital Terrain Modelling in Landscape Architecture	444
Teaching Digital Landscape Architecture	455
<i>Marlow, C. M., Hunt, M. A., Calkins, M. E. and Motloch, J. L.:</i> Design Education in Transition.....	456
<i>Marlow, C. M.:</i> Games and Learning in Landscape Architecture.....	468
<i>Nothhelfer, U. G.:</i> Interactive Learning Beyond Knowledge-based Education	476
<i>Speed, C.:</i> Designing for Invisible Landscapes	485
<i>Watson, D.:</i> Are Landscape Programmes Meeting the Challenge of Educating the Second Generation of Digital Landscape Architects?.....	491

Technical Papers	501
<i>Dangermond, J., ESRI:</i> GeoDesign and GIS – Designing Our Futures	502
<i>EUROGIS IT-SYSTEME:</i> FloraCAD als ganzheitliche Lösung für die grüne Branche.....	515
DLA AWARDS 2009 and Poster Submission	522
DLA Awards 2009	522
Poster Submission	523
Board of Committee Contributing to the DLA Conference	527
Scientific Program Committee of DLA.....	527
Review Committee and Thank You from the Editors	529
ECLAS Committee Digital Technology	534
Addresses of Authors	535
Early Conference Announcement & Call for Papers for International Conference “Digital Landscape Architecture DLA 2011”: to be held 26 – 28 May, 2011 in Dessau and at the Bernburg Campus, Germany – Parallel with ECLAS/LE:NOTRE Summer School 2011	541
