

## Contents

### Wednesday, June 20

#### S2.1: Components

Chair: Ulrike Thomas (Chemnitz University of Technology, Germany)

<i>A Compliant, High Precision, Pneumatic Rotary Drive for Robotics .....</i>	1
Johannes T Stoll (Fraunhofer IPA, Germany); Andreas Pott (University of Stuttgart, Germany)	
<i>Comparison of 3D Shape Reconstruction Methods with Fiber-Optic Sensors .....</i>	8
Christopher Riehs (Graduate School Of Excellence Advanced Manufacturing Engineering, University Stuttgart & Fraunhofer Institute for Manufacturing Engineering and Automation IPA, Germany); Bernhard Kleiner and Urs Schneider (Fraunhofer IPA, Germany); Alexander Verl (Stuttgart University, Institute for Control Engineering of Machine Tools, Germany)	

<i>Development of Light and Compact Clutch Device using Jamming Effect.....</i>	15
Yasumichi Aiyama and Tianren Liu (University of Tsukuba, Japan)	

<i>Tactile Sensor Modules for Flexible Manipulation.....</i>	21
Veit Müller (Fraunhofer Institute for Factory Operation and Automation IFF, Germany); Christoph Urbahn, Reem AlGaifi, Maximilian Schmidt, José Saenz and Norbert Elkemann (Fraunhofer IFF, Germany)	

#### S3.1: Industrial Robots

Chair: Sebastian Reitelshöfer (Friedrich-Alexander-Universität Erlangen-Nürnberg, Germany)

<i>On the implementation of transferable assembly applications for industrial robots .....</i>	28
Lorenz Halt, Philipp Tenbrock, Frank Nägele and Andreas Pott (Fraunhofer IPA, Germany)	

<i>Robotic Friction Stir Welding of complex geometry and mixed materials.....</i>	35
Gunnar Bolmsjö (Linnaeus University, Sweden); Ana Magalhães (University West, Sweden); Lars Cederqvist (SKB AB, Sweden); Jeroen De Backer (University West, Sweden)	

<i>Online Motion Planning for Dual-Arm Industrial Robots .....</i>	42
Felix Beuke (University of Stuttgart & Robert Bosch GmbH, Germany); Sergey Alatartsev, Simon Jessen and Christian Hanel (Robert Bosch GmbH, Germany); Alexander Verl (Stuttgart University, Institute for Control Engineering of Machine Tools, Germany)	

<i>Workpiece localization methods for robotic welding - a review .....</i>	50
Gesine Schleth (Fraunhofer Institute for Manufacturing Engineering and Automation IPA, Germany); Alexander Kuss and Werner Kraus (Fraunhofer IPA, Germany)	

**S4.1: Service Robots**

Chair: Myron Diftler (NASA/Johnson Space Center, USA)

<i>Development and evaluation of a fingertip operated joystick.....</i>	56
Nobuto Matsuhira and Satoru Suzuki (Shibaura Institute of Technology, Japan)	
<i>Design of a novel spherical robot with high dynamic range and maneuverability for flexible applications .....</i>	65
Vadym Bilous (Brandenburg University of Technology, Germany); Mayur Andulkar (BTU Cottbus Senftenberg & Chair of Automation Technology, Germany); Ulrich Berger (Brandenburg University of Technology, Germany)	
<i>Experimental Platform of Space Robot Grasping Various Non-prehensile Targets.....</i>	70
Xin Zhang (Shenyang Institute of Automation, Chinese Academy of Sciences & University of Chinese Academy of Sciences, P.R. China); Jinguo Liu (Shenyang Institute of Automation, Chinese Academy of Sciences, P.R. China); Jingkai Feng (Shenyang Institute of Automation, Chinese Academy of Sciences & University of Chinese Academy of Sciences, P.R. China)	
<i>Datasets of Long Range Navigation Experiments in a Moon Analogue Environment on Mount Etna .....</i>	77
Mallikarjuna Vayugundla (Robotics and Mechatronics Center (RMC), Institute of Robotics and Mechatronics & Deutsches Zentrum für Luft- und Raumfahrt e. V. (DLR), Germany); Florian Steidle, Michal Smisek, Martin J. Schuster, Kristin Bussmann and Armin Wedler (Robotics and Mechatronics Center (RMC), Institute of Robotics and Mechatronics, Germany)	

**Poster Session**

<i>Stabilization of a hopper with three reaction wheels .....</i>	84
Igor Ryadchikov (Kuban State University, Russia); Dmitry Sokolov (University of Lorraine, France); Andrei Biryuk (Kuban State University, Russia); Semyon Sechenev (Kuban State University & Dynamic Stabilization Systems LTD, Russia); Alexander Svidlov, Pavel Volkodav, Yury Mamelin and Kirill Popko (Kuban State University, Russia); Evgeny Nikulchev (Moscow Technological Institute, Russia)	
<i>Automated and Flexible Coil Winding Robotic Framework .....</i>	88
Stefano Michieletto, Francesca Stival and Francesco Castelli (University of Padova, Italy); Enrico Pagello (University Padova, Italy)	
<i>Estimating powered wheelchair driver intentions more accurately using force feedback information .....</i>	92
Alexander Huentemann, Emmanuel Vander Poorten and Eric Demeester (University of Leuven, Belgium)	
<i>About robot applications and robotic research .....</i>	96
Christoph Hellmann, Thilo Zimmermann and Werner Kraus (Fraunhofer IPA, Germany)	
<i>Correlation between the dynamic behavior of a six-axis industrial robot and the milling process .....</i>	102
Ali Karim (University of Stuttgart & University of Stuttgart, Germany); Melanie Munz (University of Stuttgart, Germany); Alexander Verl (Stuttgart University, Institute for Control Engineering of Machine Tools, Germany)	
<i>Design and Development of a Low-Cost Open-Source Robotics Education Platform .....</i>	107
Timothy Darrah (Vanderbilt University & Electrical Engineering & Computer Science, USA); Nicole Hutchins (Vanderbilt University, USA); Gautam Biswas (Vanderbilt University & Institute for Software Integrated Systems, USA)	

<i>Online Intention Prediction and Task Planning for Human-Robot Collaboration and Competition .....</i>	111
Huan Tan (GE Global Research, USA)	
<i>Theoretical Aspects of Impedance Controllers' Modularization .....</i>	115
Ferenc Fodor (Technical University of Cluj-Napoca, Romania); Alexander Verl (Stuttgart University, Institute for Control Engineering of Machine Tools, Germany); Cornel Brisan (Technical University of Cluj-Napoca, Romania)	
<i>The Robotic ServiceAssistant - Relieving the Nursing Staff of Workload .....</i>	119
Simon Baumgarten, Birgit Graf and Theo Jacobs (Fraunhofer IPA, Germany)	
<i>Simulation of multi-axis machining using the BSP-dexel representation .....</i>	123
Evgenii Katz, Dmitry Kurennov and Alexander Petunin (Ural Federal University, Russia)	
<i>Systematic Analysis of Global and Local Planners for Optimal Trajectory Planning .....</i>	127
Maximilian Pittner, Markus Hiller and Florian Particke (Friedrich-Alexander-Universität Erlangen-Nürnberg, Germany); Lucila Patino-Studencki (Friedrich-Alexander-Universität Erlangen-Nürnberg, Germany); Jörn Thielecke (Friedrich-Alexander-Universität Erlangen-Nürnberg (FAU), Germany)	
<i>Performance Impact Assessment for SSM using Simulated Stations .....</i>	131
Nicolas H. Lehment (ABB Gomtec GmbH, Germany); Remus Boca (ABB Corporate Research Center, USA)	
<i>HRIM: the Hardware Robot Information Model .....</i>	135
Victor Mayoral Vilches (Erle Robotics & Acutronic Robotics, Spain); Irati Zamalloa (Erle Robotics, Germany)	
<i>A Virtual Robot to support Programming Learning .....</i>	139
Joao Tiago Aparicio (Instituto Universitario de Lisboa (ISCTE-IUL), ISTAR-IUL, Portugal); Carlos J Costa (University of Lisbon, Portugal); Manuela Aparicio (Instituto Universitario de Lisboa (ISCTE-IUL), ISTAR-IUL, Portugal)	
<i>Positioning Error Analysis of Least Squares Method for Wireless Sensor Networks .....</i>	143
XiangRui Tian (Nanjing University of Aeronautics and Astronautics, P.R. China); Weikun Zhen (Carnegie Mellon University, USA); Sebastian Scherer (The Robotics Institute, Carnegie Mellon University, USA); Xiong Lu (Nanjing University of Aeronautics and Astronautics, P.R. China)	
<i>The Potential of RFID-Technology in Combination with Robotic Manipulators .....</i>	147
Christian Thormann and Alexander Winkler (Hochschule Mittweida, University of Applied Sciences, Germany)	
<i>Design Concept of an Automated Solid Waste Selection System .....</i>	151
Catalin Boanta (Technical University of Cluj-Napoca, Romania); Mihai Margaritescu (The National Institute of R&D in Mechatronics and Measurement Technique, Romania); Alexander Verl (Stuttgart University, Institute for Control Engineering of Machine Tools, Germany); Cornel Brisan (Technical University of Cluj-Napoca, Romania)	
<i>Potentials of vacuum suction grippers in human-robot-collaboration applications .....</i>	155
David Straub (Graduate School Of Excellence Advanced Manufacturing Engineering, Germany); Kevin Huber (J. Schmalz GmbH, Germany)	
<i>Evaluating Genetic Algorithm based parameter tuning of a black-box object localisation algorithm for random bin picking .....</i>	159
Maarten Verheyen, Jeroen De Maeyer and Eric Demeester (University of Leuven, Belgium)	

<i>ESMERA - European SMEs Robotics Applications .....</i>	163
Esra Icer, Sebastian Weisenburger, Michael Zechmair and Arne Peters (Technische Universität München, Germany); Alois Knoll (Technical University Munich Garching, Germany); Sotiris Makris and George Michalos (University of Patras, Greece)	
<i>Robotized transportation of existing carts.....</i>	167
Niels Jacobsen (Mobile Industrial Robots ApS, Denmark)	

## S2.2: Technologies

Chair: Bernd Kuhlenkötter (Ruhr-Universität Bochum, Lehrstuhl für Produktionssysteme (LPS), Germany)

<i>Augmented Reality Robot Operation Interface with Google Tango .....</i>	170
Michael Gradmann, Eric Orendt, Edgar Schmidt and Stephan Schweizer (Universität Bayreuth, Germany); Dominik Henrich (University of Bayreuth, Germany)	
<i>Efficient Object Pose Estimation in 3D Point Clouds using Sparse Hash-Maps and Point-Pair Features...</i>	178
Hannes Kisner and Ulrike Thomas (Chemnitz University of Technology, Germany)	

<i>Determining robot contour accuracies on non-standard geometries using imaging techniques.....</i>	185
Christoph Scharfenberg, Ute Gauger, Adrian Wolf, Jan Fischer and Martin Schray (TRUMPF Laser- und Systemtechnik GmbH, Germany)	

<i>Validation of workspace monitoring and human detection for soft safety with collaborative mobile manipulator using machine learning techniques in the ColRobot project .....</i>	191
Simone Bexten, Julian-Benedikt Scholle, José Saenz, Christoph Walter and Norbert Elkemann (Fraunhofer IFF, Germany)	

## S3.2: Automation

<i>Towards plug and work - OPC UA as middleware of modern automation systems .....</i>	199
Florian Krebs (German Aerospace Center, Germany)	

<i>Towards a Common Manufacturing Service Bus to Enable Flexible Plug-and-Produce Automation .....</i>	205
Fábio Miranda and Renato Martins (Introsys, Portugal); Kirill Dorofeev (Fortiss GmbH, Germany); Valerio Gentile (We Plus S. p. A, Italy); Pedro Ferreira (Loughborough University, United Kingdom (Great Britain)); Magno Guedes (Introsys, Portugal)	

<i>Production Logistics with mobile robots .....</i>	213
Christian Wurll, Timo Fritz, David Hollnaicher and Yannick Hermann (Karlsruhe University of Applied Sciences, Germany)	

<i>Using OPC UA for distributed industrial robot control.....</i>	501
Axel Vick and Jörg Krüger (Fraunhofer IPK, Germany)	

## S4.2: Service Robots

Chair: Alexander Verl (Stuttgart University, Institute for Control Engineering of Machine Tools, Germany)

<i>How to Always Keep an Eye on the User with a Mobile Robot? .....</i>	219
Alexander Vorndran, Thanh Q. Trinh, Steffen Mueller, Andrea Scheidig and Horst-Michael Gross (Ilmenau University of Technology, Germany)	

<i>Visual Classification of Single Waste Items in Roadside Application Scenarios for Waste Separation .....</i>	226
Jochen Lindermayr, Cathrin Senst, Manh-Ha Hoang and Martin Hägele (Fraunhofer IPA, Germany)	
<i>Immersive Teleoperation of the Gaze of Social Robots. Assessing Gaze-Contingent Control of Vergence, Yaw and Pitch of Robotic Eyes .....</i>	232
Rémi Cambuzat and Frédéric Elisei (GIPSA-Lab, France); Gérard Bailly (Institut National Polytechnique de Grenoble, France); Olivier Simonin (INSA Lyon, France); Anne Spalanzani (Pierre-Mendès-France University, France)	
<i>"Take a seat, please": Approaching and Recognition of Seated Persons by a Mobile Robot .....</i>	240
Thanh Q. Trinh, Tim Wengefeld, Steffen Mueller, Alexander Vorndran, Michael Volkhardt, Andrea Scheidig and Horst-Michael Gross (Ilmenau University of Technology, Germany)	

## Thursday, June 21

### S1.1: Modeling

Chair: Karsten Berns (Technische Universität Kaiserslautern, Germany)

<i>Pose Estimation of Mobile Robots with Quantized Measurements using EFIR Filtering: Experimental comparison with the EKF .....</i>	248
Daniel Heß and Christof Röhrig (University of Applied Sciences and Arts, Dortmund, Germany)	

<i>Functional Integration of a Robotics Software Framework into a Human Simulation System .....</i>	255
Kai Lemmerz and Paul Glogowski (Ruhr-Universität Bochum, Germany); Alfred Hypki and Bernd Kuhlenkötter (Ruhr-Universität Bochum, Lehrstuhl für Produktionssysteme (LPS), Germany)	

<i>A Cable-Driven Parallel Robot Remotely Controlled by a Human-Driven Parallel Cable Robot .....</i>	263
Chang-Sei Kim (Chonnam National University & School of Mechanical Engineering, Korea); Jinwoo Jung, Eui-Sun Kim, Xuejin Kim, Jinlong Park, Eunpyo Choi and Jongoh Park (Chonnam National University, Korea)	

### S6.1: Future of Work

<i>PowerGrasp: Concept for a novel Soft-Robotic Arm Support System .....</i>	269
Jan Kusch, Jean-Paul Goppold, Henning Schmidt and Jörg Krüger (Fraunhofer IPK, Germany)	

<i>Design of a wearable robotic hand to investigate multisensory illusions and the bodily self of humans .....</i>	275
The Vu Huynh, Andrej Scherf and Alina Bittner (Technische Universität Darmstadt, Germany); Gianluca Saetta (University Hospital Zurich, Switzerland); Bigna Lenggenhager (University of Zurich, Switzerland); Philipp Beckerle (Technische Universität Darmstadt, Germany)	

<i>Integration of Safety elements into task-oriented programming system for human-robot-collaboration .....</i>	281
Julia Berg, Christoph Richter and Gunther Reinhart (Fraunhofer IBCV, Germany)	

### S4.3: Service Robot Software Architecture

<i>Dynamic Route Planning for Area Processing Autonomous Robots .....</i>	285
Moritz Weisenböhler and Christian Wurll (Karlsruhe University of Applied Sciences, Germany)	

<i>3D SLAM With Scan Matching and Factor Graph Optimization .....</i>	292
Thomas Emter and Janko Petereit (Fraunhofer IOSB, Germany)	
<i>Semi-automatic Calibration of UWB Range Measurements for an Autonomous Mobile Robot .....</i>	300
Merlin Stampa and Marcel Müller (University of Applied Sciences and Arts Dortmund, Germany); Daniel Heß (University of Applied Sciences and Arts, Dortmund, Germany); Christof Röhrlig (University of Applied Sciences and Arts in Dortmund, Germany)	

## S1.2: Planning

Chair: Arturo Baroncelli (IFR, Italy)

<i>Behavior-based approach for calculation of a robot arm's inverse kinematics on an FPGA .....</i>	306
Alexander Köpper and Karsten Berns (Technische Universität Kaiserslautern, Germany)	
<i>Mobile robot path planning with explicit consideration of uncertainty due to state space and action space discretisation .....</i>	314
Eric Demeester (University of Leuven, Belgium)	

<i>Computation of Collision Distance and Gradient using an Automatic Sphere Approximation of the Robot Model with Bounded Error .....</i>	322
Andreas Völz and Knut Graichen (Ulm University, Germany)	

## S3.3: Industrial Robot Applications

<i>Development of Robot Programming System through the use of Augmented Reality for Assembly Tasks ...</i>	330
Wenchao Zou (Brandenburg University of Technology Cottbus-Senftenberg, Germany); Mayur Andulkar (BTU Cottbus Senftenberg & Chair of Automation Technology, Germany); Ulrich Berger (Brandenburg University of Technology, Germany)	

<i>Sealing Process on a Large Floor Grid Crossbeam Assembly through Human-Robot-Cooperation .....</i>	337
Rainer Müller, Matthias Vette-Steinkamp and Aaron Geenen (ZeMA Zentrum für Mechatronik und Autom. gGmbH, Germany)	

## S4.4: Service Robot Technologies

Chair: Jongoh Park (Chonnam National University, Korea)

<i>System Identification and Sliding Mode Depth Control of the Micro AUV SEMBIO .....</i>	344
Ulrich Behrje and Ammar Amory (University of Luebeck, Germany); Benjamin Meyer (University of Luebeck & Institute of Computer Science, Germany); Erik Maehle (University of Lubeck, Germany)	

<i>Semantic Segmentation Guided SLAM Using Vision and LiDAR .....</i>	352
Naman Patel (New York University, USA); Prashanth Krishnamurthy (NYU Polytechnic School of Engineering, USA); Farshad Khorrami (New York University, USA)	

<i>Lack of Robustness of LIDAR-Based Deep Learning Systems to Small Adversarial Perturbations .....</i>	359
Naman Patel and Kang Liu (New York University, USA); Prashanth Krishnamurthy (NYU Poly- technic School of Engineering, USA); Siddharth Garg and Farshad Khorrami (New York University, USA)	

**S1.3: Control**

<i>Orientation dependent stiffness optimization of wearable robotics components .....</i>	366
Benedikt Kriegesmann (Technische Universität Hamburg, Germany); Robert Weidner (Helmut Schmidt University, Germany); Erik Fleming (Technische Universität Hamburg, Germany)	
<i>Calibration of multiple 3D LiDAR sensors to a common vehicle frame .....</i>	372
Nina Heide, Thomas Emter and Janko Petereit (Fraunhofer IOSB, Germany)	
<i>Behavior-Based Low-Level Control for (semi-) Autonomous Vehicles in Rough Terrain .....</i>	380
Thorsten Ropertz and Patrick Wolf (TU Kaiserslautern, Germany); Karsten Berns (University of Kaiserslautern, Germany)	

**S3.4: Robotics in Production**

Chair: Christian Schlosser (Lufthansa Technik AG, Germany)

<i>Guiding Robots to Predefined Goal Positions with Multi-Modal Feedback .....</i>	388
Michael Riedl and Dominik Henrich (University of Bayreuth, Germany)	

<i>Intuitive visual definition of part aligned coordinate systems and motions for industrial robots .....</i>	394
Bernd Winkler (Fraunhofer IPA, Germany)	

<i>Simulation-based Control of Reconfigurable Robotic Workcells: Interactive Planning and Execution of Processes in Cyber-Physical Systems .....</i>	400
Marc Priggemeyer (RWTH Aachen University, Germany); Juergen Rossmann (Technical University of Aachen, Germany)	

**S6.2: HRC Applications**

Chair: Annika M Raatz (Leibniz Universität Hannover & Institute of Assembly Technology, Germany)

<i>Improvements in Robot Teaching for Handling Operations in Production Environments .....</i>	408
Jan Hodapp (Daimler AG & Brandenburg University of Technology Cottbus-Senftenberg, Germany); Mayur Andulkar (BTU Cottbus Senftenberg & Chair of Automation Technology, Germany); Thorsten Reichling (Daimler AG, Germany); Ulrich Berger (Brandenburg University of Technology, Germany)	

<i>Fast Graphical Task Modelling for Flexible Human-Robot Teaming .....</i>	414
Dominik Riedelbauch (Universität Bayreuth, Germany); Dominik Henrich (University of Bayreuth, Germany)	

<i>Sparse and Precise Reconstruction of Static Obstacles for Real-Time Path Planning in Human-Robot Workspaces .....</i>	420
Tobias Werner and Maximilian Sand (Universität Bayreuth, Germany); Dominik Henrich (University of Bayreuth, Germany)	

<i>Identifying Human Hand Position around a Cylindrical Handlebar .....</i>	427
Antony Tran (University of Technology, Sydney & Center for Autonomous Systems, Australia); Dikai Liu (University of Technology, Sydney, Australia); Ravindra Ranasinghe (University of Technology, Australia); Marc Carmichael (University of Technology, Sydney, Germany)	

## S6.4: HRC Technologies

<i>Framework for automated program generation of HRC applications .....</i>	435
Fabian Müller, Christian Deuerlein, Daniel Rücker, Michael Koch and Peter Heß (Technische Hochschule Nürnberg Georg Simon Ohm, Germany); Alexander Hasse (Technische Universität Chemnitz, Germany)	
<i>User-Centered Design of Multimodal Robot Feedback for Cobots of Human-Robot Working Cells in Industrial Production Contexts .....</i>	442
Johannes Höcherl (OTH Regensburg, Germany); Maike Schmargendorf (University of Regensburg, Germany); Britta Wrede (Bielefeld University, Germany); Thomas Schlegl (OTH Regensburg, Germany)	
<i>Collaboration-Gap: A bus-modular architecture for human-robot-collaboration systems in production environments .....</i>	450
Markus Schiemann (Daimler AG & Brandenburg University of Technology Cottbus-Senftenberg, Germany); Ulrich Berger (Brandenburg University of Technology, Germany); Jan Hodapp (Daimler AG & Brandenburg University of Technology Cottbus-Senftenberg, Germany)	
<i>Gesture based robot programming using ROS platform .....</i>	455
Zoltán Forgó (Sapienza University, Romania); Alfred Hypki and Bernd Kuhlenkötter (Ruhr-Universität Bochum, Lehrstuhl für Produktionssysteme (LPS), Germany)	

## S6.3: Safe HRC

Chair: Alexander Meißner (Dürr Systems GmbH, Bietigheim-Bissingen, Germany)

<i>A user study on robot path planning inside a Virtual Reality environment .....</i>	462
Christian Just, Tobias Ortmaier and Lüder A. Kahrs (Leibniz Universität Hannover, Germany)	
<i>New concept of safety to realize improvement of higher productivity and safety in an environment of human-robot collaboration, and proposal of the concept of Collaboration Safety Level .....</i>	468
Takayoshi Shimizu and Ikuo Maeda (IDEA Corporation, Japan)	
<i>A Method for Robot Confidence Measurement in its Human .....</i>	474
Antony Tran (University of Technology, Sydney & Center for Autonomous Systems, Australia); Dikai Liu (University of Technology, Sydney, Australia); Ravindra Ranasinghe (University of Technology, Australia); Marc Carmichael (University of Technology, Sydney, Germany)	

## S5: New Robotics Applications

Chair: Cornel Brisban (Technical University of Cluj-Napoca, Romania)

<i>Learning Multi-Goal Inverse Kinematics in Humanoid Robot .....</i>	482
Phaniteja Singamaneni (International Institute of Information Technology, India); Parijat Dewangan (International Institute of Information Technology, Hyderabad, India); K. Madhava Krishna (IIIT H, India); Abhishek Sarkar (IIIT Hyderabad, India)	
<i>Performance characterization and improvement of an underactuated robot gripper .....</i>	488
Giovanni Carabin and Renato Vidoni (Free University of Bozen-Bolzano, Italy); Dominik T. Matt (Polytechnic University of Torino, Italy)	

*TrimBot2020: an outdoor robot for automatic gardening ..... 495*

Nicola Strisciuglio (University of Groningen, The Netherlands); Radim Tylecek (University of Edinburgh, United Kingdom (Great Britain)); Michael Blaich (Bosch, Germany); Nicolai Petkov (University of Groningen, The Netherlands); Peter Biber (Bosch, Germany); Jochen Hemming and Eldert van Henten (Wageningen University and Research, The Netherlands); Torsten Sattler and Marc Pollefeys (ETH Zurich, Switzerland); Theo Gevers (University of Amsterdam, The Netherlands); Thomas Brox (University of Freiburg, Germany); Robert Fisher (University of Edinburgh, United Kingdom (Great Britain))
