

# Inhaltsverzeichnis

## Session 1 – Reliability

Leitung: S. Sattler, Friedrich-Alexander-Universität, Erlangen-Nürnberg

- 1 Reliability Calculation of Printed Circuit Boards and Assemblies under Reference, Test and Operating Conditions ..... 8**  
D. Dudek, Trainalytics, Lippstadt
- 2 The TRACE Methodology ..... 14**  
R. Busch, M. Wahl, Universität Siegen; H. Völkel, BMW AG, München; A. Aal, Volkswagen AG, Wolfsburg

## Session 2 – Advanced Driver Assistance Systems

Leitung: D. Schramm, Universität Duisburg-Essen

- 3 Object Classification in the Fixation of a Car Driver ..... 20**  
A. Hugenroth<sup>1,2</sup>, F. Albers<sup>2</sup>, M. Oeljeklaus<sup>2</sup>, T. Bertram<sup>2</sup>  
<sup>1</sup>HELLA GmbH & Co. KGaA, Lippstadt, <sup>2</sup>Technische Universität Dortmund
- 4 ThreatGet: Threat Modeling Based Approach for Automated and Connected Vehicle Systems ..... 26**  
C. Schmittner, S. Chlupa, A. Fellner, Austrian Institute of Technology GmbH, Vienna, Austria;  
G. Macher, E. Brenner, Graz University of Technology, Graz, Austria
- 5 Local and String Stability Conditions of a Generalized Adaptive Cruise Control System ..... 29**  
P. Khound, P. Will, F. Gronwald, Universität Siegen

## Session 3 – Networks

Leitung: R. Denkelmann, Aptiv Services Deutschland GmbH, Wuppertal

- 6 Optimization of Power and Signal Distribution Systems for Advanced Safety Features..... 37**  
N. Potthoff, T. Feismann, R. Denkelmann, Aptiv Services Deutschland GmbH;  
M. Kiffmeier, M. Rübartsch, S. Frei, Technische Universität Dortmund
- 7 Phase Relation for the Signaling from an Automotive Ethernet 100BASE-T1 Communication System ..... 44**  
E. Panholzer<sup>1,2</sup>, M. Aidam<sup>1</sup>, W. Franz<sup>1</sup>, S. Lindenmeier<sup>2</sup>,  
<sup>1</sup>Daimler AG, Sindelfingen; <sup>2</sup>University of the Federal Armed Forces Munich, Neubiberg
- 8 Signal Improvement Capability (SIC) for CAN FD Networks ..... 50**  
Y. Yao, CAN in Automation (CiA) e.V., Nürnberg

**Session 4 – Poster**

Leitung: T. Liebetrau, Infineon AG, Neubiberg

<b>P1 Data-Driven BEV Modeling for Realistic Consumption Calculation in Traffic Simulation .....</b>	<b>54</b>
T. Weber, P. Driesch, D. Schramm, University of Duisburg-Essen	
<b>P2 Solder Joint Fatigue Testing with Harsh Temperature Rates: Influence of Dwell Time .....</b>	<b>60</b>
S. Schambeck <sup>1</sup> , J. Jaeschke <sup>2</sup> , M. Hutter <sup>2</sup> , A. Deutinger <sup>1</sup> , F. Kederer <sup>1</sup> , M. Schneider-Ramelow <sup>2</sup> <sup>1</sup> BMW Group, München; <sup>2</sup> Fraunhofer IZM, Berlin	
<b>P3 Graphical Data Visualization for Vehicular Communication Systems in Real and Virtual Test Environments .....</b>	<b>65</b>
V. Lizenberg <sup>1</sup> , B. Büchs <sup>1</sup> , S. Knapp <sup>1</sup> , R. Mannale <sup>1</sup> , F. Köster <sup>2</sup> <sup>1</sup> Opel Automobile GmbH, Rüsselsheim am Main; <sup>2</sup> German Aerospace Center, Braunschweig	
<b>P4 Digital Obsolescence Management for the Automotive Industry .....</b>	<b>71</b>
W. Heinbach, D+D+M Datenund Dokumentations-Management GmbH & Co. KG, Stuttgart	
<b>P5 A Search for Visual Features in Adversarial Networks .....</b>	<b>76</b>
F. Dehghani, F. Ghorban, J. Velten, A. Kummert, Universität Wuppertal	
<b>P6 Asynchronous Design .....</b>	<b>82</b>
F. Deeg, J. Zhu, S. Sattler, Friedrich-Alexander-Universität Erlangen-Nürnberg	
<b>P7 Filter Design in the High Voltage System of Electric Vehicles with Respect to Ripple Limits .....</b>	<b>87</b>
J. G. Pazmany, Dr. Ing. h.c. F. Porsche AG, Weissach; K. Rechberger, B. Bäker, Technische Universität Dresden	
<b>P8 Scenario-Based Meta-Scheduling for Power Performance Optimization Supporting Core and Router Frequency Scaling in Time-Triggered Multi-Core Architectures .....</b>	<b>93</b>
B. Sorkhpour, R. Obermaisser, R. Kirner, University of Siegen & University of Hertfordshire, UK	

**Session 5 – Algorithms and Modelling**

Leitung: F. Bläsing, Leopold Kostal GmbH &amp; Co. KG, Dortmund

<b>9 Learning a Map to Predict Recuperation for Efficiency in Automotive Electrical Energy Management .....</b>	<b>110</b>
A. Heimrath, J. Froeschl, BMW AG, München; U. Baumgarten, Technische Universität München	
<b>10 A Simulation-based, Statistical Approach for the Derivation of Concrete Scenarios for the Release of Highly Automated Driving Functions .....</b>	<b>116</b>
N. Weber, D. Frerichs, U. Eberle, Opel Automotive GmbH, Rüsselsheim	
<b>11 Automotive Power System Model Validation Using Impulse Response Analysis .....</b>	<b>122</b>
M. Baumann, C. Weissinger, BMW Group; H.-G. Herzog, Technische Universität München	

## Session 7 – Sensor Systems

Leitung: R. Montino, Elmos Semiconductor AG, Dortmund

- 12 Parameter Identification of Vehicle Dynamics Models Using CAN Communication on Real-life Driving Data ..... 127**  
S. Reicherts, D. Schramm, Universität Duisburg-Essen
- 13 Functional Simulation of Automotive Lidar and Camera Sensors ..... 133**  
K. Bartsch, N. Stannartz, M. Schmidt, T. Bertram, Technische Universität Dortmund
- 14 Vehicle Environment Recognition for Safe Autonomous Driving: Research Focus on Solid-State LiDAR and RADAR ..... 139**  
C. Galle, J. Amelung, Fraunhofer Verbund Mikroelektronik, Berlin; T. Dallmann, S. Brüggewirth, Fraunhofer FHR, Aachen und Wachtberg
- 15 Head- und Eyetrackingsysteme im Fahrzeug: Technologische Potentiale ..... 142**  
M. Wrzesniewski, C. König, S. Miglietta, H. Kienast, ESG Mobility GmbH, Rüsselsheim

## Session 8 – Factors Influencing Automated Driving

Leitung: N. Beringer, Elektrobit Automotive GmbH, Erlangen

- 16 Impact of Highly Efficient Power Electronics on the EMC in Electric Vehicles with Autonomous Driving Functions ..... 145**  
S. Jeschke, J. Loos, M. Kleinen, M. Maarleveld, J. Bärenfänger, EMC Test NRW GmbH, Dortmund
- 17 Active Cancellation of Periodic Electromagnetic Disturbances for Passive Filter Reduction in Automotive dc-to-dc Converters ..... 149**  
A. Bendicks, T. Dörlemann, T. Osterburg, S. Frei, Technische Universität Dortmund;  
N. Hees, M. Wiegand, Leopold Kostal GmbH & Co. KG, Lüdenscheid
- 18 Efficient Automotive On-Board Chargers for the Volume Ramp-Up of E-Mobility ..... 154**  
J. Schnitzler, T. Lutter, Leopold Kostal GmbH & Co KG, Dortmund
