Programm

Poster Session

Quasi-static loaded circular testing of serial articulated industrial manipulators 1
Monica Gonzalez, Arian Hosseini, Nikolas Alexander Theissen and Andreas Archenti (KTH Royal Institute of Technology, Sweden)

Industrial Robots

Chair: Alexander Meißner (Dürr Systems GmbH, Bietigheim-Bissingen, Germany)

Supervised Autonomous Interaction in Unknown Territories – Concept for Industrial Applications in the near Future 7
Jonas Christoph Wittmann, Jonis Kiesbye, Daniel Rixen and Ulrich Walter (Technical Univer-sity of Munich, Germany)

Evaluation of path planning strategies in automated honeycomb potting 15
Martin Harnisch and Johann Kipping (Hamburg University of Technology, Germany); Thorsten Schüppstuhl (Technische Universität Hamburg-Harburg, Germany)

Operation and experimental evaluation of a 12-axis robot-based setup used for 3D-printing 22
Zsolt Kállai and Maik Dammann (Hamburg University of Technology, Germany); Thorsten Schüppstuhl (Technische Universität Hamburg-Harburg, Germany)

Mobile Robotics

Chair: Birgit Graf (Fraunhofer IPA, Germany)

Traveling Drinksman 31
Michele Persiani (Umeå University, Sweden); Cagatay Odabasi and Florenz Graf (Fraun-hofer IPA, Germany); Mohit Kalra (University of Stuttgart & Fraunhofer IPA, Germany); Thomas Hellström (Umeå University, Sweden); Birgit Graf (Fraunhofer IPA, Germany)

Robust and Precise Localization of Mobile Robots us-ing EFIR Estimation for Fusing Odometry with Position Measurements 37
Daniel Heß (University of Applied Sciences and Arts, Dortmund, Germany); Christof Röhrig (University of Applied Sciences and Arts in Dortmund, Germany)

Dynamic Obstacle Layer: A new concept to avoid moving obstacles in local path planning using ROS 44
Tonja Heinemann, Moritz Villinger and Armin Lechler (University of Stuttgart, Germany); Alexander Verl (Stuttgart University, Institute for Control Engineering of Machine Tools, Germany)

Poster Session

Robot programming system for human-robot cooperation and collaboration 52
Julia Berg (Fraunhofer IGCV, Germany); Johannes Schilp (University of Augsburg, Germany)

Multi-modal Visual Withdrawal Detection for Inventory Management on a Robotic Care Cart 58
Jochen Lindermayr and Cagatay Odabasi (Fraunhofer IPA, Germany); Timur Alexander Wohlleber (Universität Stuttgart, Germany); Birgit Graf (Fraunhofer IPA, Germany)

Components and Technologies

Chair: Ulrike Thomas (Chemnitz University of Technology, Germany)

A New Compliant Leg for the Humanoid Robot Forrest
Hongxi Zhu and Ulrike Thomas (Chemnitz University of Technology, Germany)
(was not available)

A New Low Cost Three-Finger Gripper with Hybrid Con-trol for Soft Touch Behaviour
Julian Bonse and Ulrike Thomas (Chemnitz University of Technology, Germany)
(was not available)

Design of Compact Omnidirectional Wheel Modules with Internal Differential Kinematics 64
Theo Jacobs and Erik Schäfer (Fraunhofer IPA, Germany)

The multi-segment controller of a flexible arm 71
Ryszard Leniowski (Rzeszów University of Technology, Poland); Lucyna Leniowska (University of Rzeszow, Poland)

Control

Automatic Synthesis of a Saturating State Space Controller Based on Convex Optimization for Industrial Robots 79
Lorenz Halt (Fraunhofer IPA, Germany); Andreas Pott (University of Stuttgart, Germany)

High Fidelity Real-Time Hybrid Substructure Testing Using Iterative Learning Control 85
Christina Insam, Arian Kist and Daniel Rixen (Technical University of Munich, Germany)

Genetic Approach for Coupled Dynamics Optimization in a Multiple Degree-of-Freedom System 92
Gustavo Jose Giardini Lahr, Luiz Marão, Henrique B Garcia, Thiago Boaventura and Glauco Caurin (University of São Paulo, Brazil)

Evaluating the Robustness of HJB Optimal Feedback Control 99
Michael Lutter (Technical University of Darmstadt, Germany); Debora Clever (ABB AG, Corporate Research, Germany); Boris Belousov (Technical University of Darmstadt, Germany); Kim Listmann (ABB Corporate Research Center Germany, Germany); Jan Peters (Technische Universität Darmstadt & Max-Planck Institute for Intelligent Systems, Germany)

Future of Work

Chair: Alfred Hypki (Ruhr-Universität Bochum, Lehrstuhl für Produktionssysteme (LPS), Germany)

PowerGrasp – Design and Evaluation of a Modular Soft-Robotic Arm Exosuit for Industrial Applications 107

Jean-Paul Goppold, Jan Kuschan and Henning Schmidt (Fraunhofer IPK, Germany); Mirko Wolschke and Jana Liebach (Reha-Zentrum Lübben, Germany); Jörg Krüger (Fraunhofer IPK, Germany); Roman Hackbart (W¨urth Electronics, Germany); Jan Kostelnik (Würth Elektronik GmbH, Germany); Gregor Thiele (Fraunhofer Gesellschaft, Germany)

Dual arm robot control by hands gestures using ROS 115

Zoltán Forgó (Sapientia University, Romania); Miguel Angel Villanueva Portela (Nation University of Colombia, Colombia); Alfred Hypki and Bernd Kuhlenkötter (Ruhr-Universität Bochum, Lehrstuhl für Produktionssysteme (LPS), Germany)

Finger Pointer Based Human Machine Interaction for Selected Quality Checks of Industrial Work Pieces 121

Christian Bräuer-Burchardt, Florian Siegmund, Daniel Höhne and Peter Kühmstedt (Fraunhofer Institute for Applied Optics and Precision Engineering IOF, Germany); Gunther Notni (Fraunhofer Institut für Angewandte Optik und Feinwerktechnik, Germany)

A Cooperative HCI Assembly Station with Dynamic Projections..... 127

Christian Lengenfelder, Christian Frese, Angelika Zube, Michael Voit and Jürgen Beyerer (Fraunhofer IOSB, Germany)

Poster Session

Can knowledge-based offline-programming compensate for the lack of welding specialists? 135

Jobst Bickendorf (Autocam Informationstechnik GmbH, Germany)

Collaborative Robots

Chair: Alexander Verl (Stuttgart University, Institute for Control Engineering of Machine Tools, Germany)

Towards Collaborative Robots as Intelligent Co-workers in Human-Robot Joint Tasks: what to do and who does it?..... 141

Ana Isabel Barros Cunha (University of Minho & Center for Computer Graphics, Portugal); Flora Ferreira (Center of Mathematics, University of Minho, Portugal); Emanuel Sousa (Center for Computer Graphics, University of Minho, Portugal); Luís Louro, Paulo Vicente, Sérgio Monteiro, Wolfram Erlhagen and Estela Bicho (University of Minho, Portugal)

An Architecture for AR-based Human-Machine Interaction with Application to an Autonomous Mobile Robot Platform 149

Alexander Atanasyan (Institute for Man-Machine Interaction, RWTH Aachen University, Germany); Jürgen Roßmann (Technical University of Aachen, Germany)

Development of devices applied to collaborative robot production system based on Collaborative Safety / Safety2.0..... 155

Hidetoshi Fukui (Manufacturer & IDEC Corporation, Japan); Takayoshi Shimizu and Ikuo Maeda (IDEC Corporation, Japan)

Robot Programming

Chair: Mihai Dragan (University of Stuttgart & ISW, Germany)

Using Task-Specific Workspace Maps to Plan and Execute Complex Robotic Tasks in a Flexible Multi-Robot Setup ***161***

Timo Jens Bachmann (German Aerospace Center (DLR), Germany); Korbinian Nottensteiner (German Aerospace Center (DLR), Institute for Robotics and Mechatronics, Germany); Ismael Rodriguez Brena (Deutsches Zentrum für Luft- und Raumfahrt e. V., Germany); Andreas Stemmer and Maximo Roa (DLR, Germany)

Use CAD Data for Intuitive Definition of Robot Actions in a Skill-based Robot Application Development Environment ***169***

Fan Dai (ABB AG & Corporate Research, Germany); Nuo Li (ABB AG, Corporate Research Germany, Germany); Debora Clever (ABB AG, Corporate Research, Germany)

Robot Path Generation for Curve Manufacturing Processes from Unstructured CAD Data: An Off-line Programming Method ***175***

Nikolaj W. Leth and Henrik Petersen (University of Southern Denmark, Denmark)

Simulation and Workspace Planning

Interactive Workspace Layout focusing on the Reconfiguration with Collaborative Robots in Modular Production Systems ***183***

Michael Wojtynek (CoR-Lab & University Bielefeld, Germany); Sebastian Wrede (Bielefeld University, Germany)

The Virtual Robotics Lab in education: Hands-on experiments with virtual robotic systems in the Industry 4.0 era ***191***

Michael Schluse (Technical University of Aachen, Germany); Marc Priggemeyer (RWTH Aachen University, Germany); Juergen Rossmann (Technical University of Aachen, Germany)

Virtual Commissioning with Mixed-Reality for Next-Generation Robot-Based Mechanical Component Testing ***199***

Michael Filipenko, Alwin Hoffmann, Alexander Poeppel, Wolfgang Reif, Andreas Monden and Markus Sause (University of Augsburg, Germany)

AI in Robotics – Methods

Chair: Karsten Berns (Technische Universität Kaiserslautern, Germany)

UEM-CNN: Enhanced Stereo Matching for Unstructured Environments with Dataset Filtering and Novel Error Metrics ***205***

Nina Felicitas Heide and Samuel Gamer (Fraunhofer IOSB, Germany); Michael Heizmann (Karlsruhe Institute of Technology, Germany)

Model-Free Grasp Learning Framework based on Physical Simulation ***213***

Marc A Riedlinger (University of Stuttgart, Germany); Markus Völk, Kilian Kleeberger, Muhammad Usman Khalid and Richard Bormann (Fraunhofer IPA, Germany)

Spatial scene representation and navigation in a mobile robot using RGB-D camera**.....221**
Marek Jaszuk (University of Information Technology and Management in Rzeszow, Poland); Wojciech Pałka (Academic High School, Poland); Michał Furgał (University of Information Technology and Management in Rzeszow, Poland); Dawid Darłak (Academic High School, Poland); Janusz Starzyk (Ohio University, USA)

Poster Session

A Pendulum Apparatus to Evaluate Unconstrained Human-Robot Contact**.....229**
Harald Staab (ABB AG, Germany); Bjoern Matthias (ABB AG Corporate Research, Germany); Christoph Byner (ABB AG, Germany); Debora Clever (ABB AG, Corporate Research, Germany)

Structure of an Industry 4.0 Compliant Architecture Component for the Development of Simulation-based Control Applications in Cyber-Physical Systems**.....237**
Marc Priggemeyer (RWTH Aachen University, Germany); Jürgen Roßmann (Technical University of Aachen, Germany)

AI in Robotics – Applications

Automated Item Picking for fashion articles using Deep Learning**.....243**
Moritz Weisenböhler and Christian Wurll (Karlsruhe University of Applied Sciences, Germany)

Robot Learning – An Industrial Perspective on Challenges and Opportunities**.....251**
Arne Wahrburg (ABB AG Corporate Research, Germany); Thomas Reisinger (ABB Automation GmbH, Germany); Rene Kirsten (ABB AG, Corporate Research, Germany); Kim Listmann (ABB Future Labs Switzerland); Nima Enayati (ABB AG Corporate Research, Germany)

Application of Ontologies for Semantic Scene Segmentation and Object Recognition**.....258**
Pierre Venet (Magazino GmbH, Germany); Kirill Safronov (KUKA Deutschland GmbH, Germany); Aaronkumar Ehambram and Sven Wagner (Leibniz Universität Hannover, Germany); Jürgen Bock (KUKA Deutschland GmbH, Germany); Uwe Zimmermann (KUKA Roboter GmbH, Germany)

Robotics in Production

Chair: Rene Kirsten (ABB Automation GmbH, Germany)

Towards Visual Referencing for Location Based Services in Industrial Settings**.....265**
Daniel Schoepflin, Michael Brand and Martin Gomse (Hamburg University of Technology, Germany); Thorsten Schüppstuhl (Technische Universität Hamburg-Harburg, Germany)

Methodology for choosing the best suitable strategy of robot trajectory adjustment**.....273**
Matthias Neuhaus, Sinje Kollan, Jobst Bickendorf and Alina Müller (TU Dortmund, Germany)

Machine learning approaches for offline-programming optimization in robotic painting....280
Julian Ricardo Diaz Posada (Dürr Systems AG, Germany); Alexander Meißner (Dürr Systems GmbH, Bietigheim-Bissingen, Germany); Gauthier Hentz and Nikolai D'Agostino (Employee, Germany)
