

Content

6G use cases and applications

<i>Towards Industry 5.0 Positioning with k-NN-Based Enhanced LoRaWAN Localization</i>	<i>1</i>
Ekaterina Svertoka (Politehnica University of Bucharest, Romania & Brno University of Technology, Czech Republic); Alexandru Rusu Casandra (University Politehnica of Bucharest, Romania); Radim Burget (Brno University of Technology, Czech Republic); Jari Nurmi and Aleksandr Ometov (Tampere University, Finland)	
<i>Improving Multi-Operator Coexistence in Distributed-IRS Assisted Networks</i>	<i>7</i>
Joana Angjo (TU Berlin, Germany); Anatolij Zubow (Technische Universität Berlin, Germany); Falko Dressler (TU Berlin, Germany)	
<i>5G Network Traffic Forecast Interface (5G-NTFI): An Open Source Framework Design for Reproducibility and Replicability</i>	<i>13</i>
Ihab Alzalam (German Research Center for Artificial Intelligence, Germany); Rekha Reddy (DFKI, Germany); Christoph Lipps (German Research Center for Artificial Intelligence, Germany); Hans Dieter Schotten (Deutsches Forschungszentrum für Künstliche Intelligenz GmbH, Germany)	
<i>Review on Content Centric Networks for Disaster and Emergency Management</i>	<i>19</i>
Isikcan Yilmaz (Technische Universität Dresden, Germany); Jiajing Zhang (Technische Universität Dresden & Centre for Tactile Internet with Human-in-the-loop, Germany); Giang T. Nguyen (Technische Universität Dresden, Germany); Frank H.P. Fitzek (Technische Universität Dresden & ComNets - Communication Networks Group, Germany)	
<i>Agricultural On-Demand Networks for 6G Enabled by THz Communication</i>	<i>25</i>
Daniel Lindenschmitt (RPTU Kaiserslautern-Landau, Germany); Christoph Fischer (German Research Center for Artificial Intelligence, Germany); Simon Haußmann (University of Stuttgart, Germany); Marc Kalter (RPTU Kaiserslautern-Landau, Germany); Ingmar Kallfass (University of Stuttgart, Germany); Hans D. Schotten (University of Kaiserslautern, Germany)	
<i>CHEAP 5G: DECT NR+ for Tactile Internet with Human in the Loop Application</i>	<i>31</i>
Stanislav Mudriievskiy (Technische Universität Dresden, Germany); Frank H.P. Fitzek (Technische Universität Dresden & ComNets - Communication Networks Group, Germany); Patrick Seeling (Central Michigan University, USA)	

Molecular communications

<i>Information-Theoretical Analysis of Event-Triggered Molecular Communication</i>	<i>35</i>
Wafa Labidi (Technical University of Munich, Germany); Christian Deppe (Technical University of Braunschweig, Germany); Holger Boche (Technical University Munich, Germany)	
<i>Multipath Signal Prediction for In-Body Nanocommunication with Volatile Particles</i>	<i>41</i>
Annika Tjabben (DFKI Kaiserslautern, Germany); Lea Bergkemper, Jan Herbst, Matthias Rüb and Christoph Lipps (German Research Center for Artificial Intelligence, Germany); Hans D. Schotten (RPTU Kaiserslautern-Landau, Germany)	

AI and Machine Learning for 6G

Neural Network-Based Self-Interference Cancellation for Frequency Division Duplex 47

Mike Beckworth, Ephraim Fuchs, Moritz B Fischer and Stephan ten Brink (University of Stuttgart, Germany)

Learning Based Access Point Selection in User-Centric Cell-Free Massive MIMO Networks..... 53

Shirin Salehi (RWTH Aachen University, Germany); Saeed Mashdour (PUC-Rio, Brazil); Orhun Tamyigit (RWTH Aachen University, Germany); Sadra Seyedmasoumian (RWTH Aachen, Germany); Majid Moradikia (Worcester Polytechnic Institute, USA); Rodrigo C. de Lamare (Pontifical Catholic University of Rio de Janeiro, Brazil & University of York, United Kingdom (Great Britain)); Anke Schmeink (RWTH Aachen University, Germany)

Complex-Valued Deep Learning for WiFi-Based Indoor Positioning: Method and Performance 59

Fabian Seguel (TUM, Germany & Chair of Media Technology, Germany); Driton Salihu and Stefan Haegele (TUM, Germany); Eckehard Steinbach (Technische Universität München, Germany)

Predictive Algorithms for Communications-Control Co-Design in Multi-Robot Systems: Demonstrated with Two Drones in a Leader-Follower Setup..... 66

Zahra Seifaei (Friedrich-Alexander-Universität Erlangen-Nürnberg (FAU), Germany); Maximilian Lübke (Friedrich-Alexander-Universität Erlangen-Nürnberg (FAU), Germany); Norman Franchi (Friedrich-Alexander-Universität Erlangen-Nürnberg, Germany)

Autonomous Self-Trained Channel State Prediction Method for mmWave Vehicular Communications.... 72

Abidemi Matthew Orimogunje (University of Rwanda, Rwanda & Redeemer's University, Nigeria); Vukan Ninkovic (University of Novi Sad, Serbia & The Institute for Artificial Intelligence Research and Development of Serbia, Serbia); Evariste Twahirwa (University of Rwanda, Rwanda); Gaspard Gashema (Kumoh National Institute of Technology, Korea (South)); Dejan Vukobratović (University of Novi Sad, Serbia)

QoS, Resilience, and Security in 6G

Improving Quality of 5G/6G/xG Network Through Reliability Estimation in Kubernetes 77

Ivan Eroshkin, Lukas Vojtech and Marek Neruda (Czech Technical University in Prague, Czech Republic)

First Steps in Concept Drift Management for Resilient Wireless Networks..... 85

Aswin Palathumveetil Jagadeesan (Technische Universität Dresden, Germany); Isikcan Yilmaz (Technische Universität Dresden, Germany); Alexandros Palaios (Ericsson Research, Germany); Giang T. Nguyen (Technische Universität Dresden, Germany); Frank H.P. Fitzek (Technische Universität Dresden & ComNets - Communication Networks Group, Germany)

Eavesdropping Fresh Information: A Game Theoretical Approach in Dual Sender Networks 91

Alessandro Buratto, Aynur Cemre Aka and Shahla Sadeghzadeh (University of Padova, Italy); Leonardo Badia (Università degli Studi di Padova, Italy)

Modulation and Coding in 6G

Comparison of Alamouti Space-Time Coding over FMCW and OFDM Radar Waveforms 97
Christoph Degen (Hochschule Niederrhein University of Applied Sciences, Germany)

PAPR Reduction in OTFS Using Adaptive Interleaver Scheme with Low Complexity..... 103
Hefdhallah Sakran (Chemnitz University of Technology, Germany); Charbel Lahoud (Technical University Chemnitz, Germany); Klaus Mößner (Chemnitz University of Technology, Germany)

Balancing Coding Overhead to Improve Sliding Window RLNC Performance 109
Foteini Karetsi (University of Ioannina, Greece); Máté Tömösközi (Technische Universität Dresden & Budapest University of Technology and Economics, Germany); Maroua Taghouti (Technische Universität Dresden, Germany); Frank H.P. Fitzek (Technische Universität Dresden & ComNets - Communication Networks Group, Germany); Evangelos Papapetrou (University of Ioannina, Greece)

Quantum communications for 6G

Detecting Dishonest Parties in a Network: A Quantum Walk Based Algorithm 116
Kiran Adhikari (TUM, Germany); Christian Deppe (Technical University of Braunschweig, Germany); Janis Nötzel (Technische Universität München, Germany); Qian Ma (Technical University of Munich, Germany)

Quantum Key Distribution Protocol with Noises and Blind Eavesdroppers..... 122
Samuel Leyikun Birhanu (Technische Universität Dresden, Germany); Muhammad Idham Idham Habibie (TU Dresden, Germany); Riccardo Bassoli (Technische Universität Dresden, Germany); Frank H.P. Fitzek (Technische Universität Dresden & ComNets - Communication Networks Group, Germany)

Quantum Stereographic K Nearest-Neighbour Clustering 128
Alonso Viladomat Jasso (TUM, Germany); Ark Modi (Qblox B.V., The Netherlands); Roberto Ferrara (Technische Universität München & Institute for Communications Engineering, Germany); Christian Deppe (Technical University of Braunschweig, Germany); Janis Nötzel (Technische Universität München, Germany); Fred Fung (Huawei Technologies Duesseldorf GmbH, Germany); Maximilian Schädler (Huawei Technologies Dusseldorf GmbH, Germany)

Impact of Network Latency on Entanglement Distribution in Quantum Repeaters Network..... 134
Abebu Ademe Bayleyegn and Riccardo Bassoli (Technische Universität Dresden, Germany); Hilal Sultan Duranoglu Tunc (TU Dresden, Germany); Frank H.P. Fitzek (Technische Universität Dresden & ComNets - Communication Networks Group, Germany)

Quantum Oblivious Transfer and Bit Commitment Through a Trusted Initializer..... 140
Davide Li Calsi and Janis Nötzel (Technische Universität München, Germany)

Entanglement-Assisted Authenticated BB84 Protocol..... 146
Pol Julià Farré (Technical University of Braunschweig, Germany); Vladlen Galetsky and Soham Ghosh (Technical University Munich, Germany); Janis Nötzel (Technische Universität München, Germany); Christian Deppe (Technical University of Braunschweig, Germany)

Strategic Interaction over Pump Power for Fidelity in Spontaneous Parametric Down-Conversion 152
Hilal Sultan Duranoglu Tunc (TU Dresden, Germany); Leonardo Badia (Università degli Studi di Padova, Italy); Riccardo Bassoli (Technische Universität Dresden, Germany); Frank H.P. Fitzek (Technische Universität Dresden & ComNets - Communication Networks Group, Germany)

Technological Advancements in 6G mmwaves/THz communication and sensing systems

A New Statistical Model of Human-Induced Multipath Dynamics in mmWaves Channels 157

Dajana Cassioli, Roberto Alesii and Alex Piccioni (University of L'Aquila, Italy); Andreas F. Molisch (University of Southern California, USA)

D2D Sub-THz Industrial Radio System for 6G: Use Case Definition, RF Transceiver Requirements

Analysis, and Feasibility Considerations 163

Lucas Fink and Masoud Seifaei (Friedrich-Alexander-Universität Erlangen-Nürnberg, Germany); Andreas Benzin and Dennis Osterland (Technische Universität Berlin, Germany); Norman Franchi (Friedrich-Alexander-Universität Erlangen-Nürnberg, Germany)

Transparent Reconfigurable Dipole Antenna Based on Graphene Twin Parasitic Sectors 169

Sana Ullah (Polytechnic University of Bari, Italy); Ilaria Marasco, Antonella D'Orazio and Giovanni Magno (Politecnico di Bari, Italy)

Key Front-End Components for W-Band 5G Wireless Backhaul..... 175

Ernesto Limiti (University of Rome Tor Vergata, Italy); Rocco Giofrè and Patrick Ettore Longhi (University of Roma Tor Vergata, Italy); Sergio Colangeli (University of Rome Tor Vergata, Italy); Paolo Colantonio (University of Roma Tor Vergata, Italy); Walter Ciccognani (Università of Rome Tor Vergata, Italy)

On the Influence of Spatial Characteristics on Fading Statistics of Sub-THz Wireless Channels 181

Ernestina Cianca (University of Rome Tor Vergata, Italy); Maimoona Asad (University of Rome "Tor Vergata", Rome, Italy); Junaid Nawaz Syed (COMSATS University Islamabad, Pakistan); Tommaso Rossi and Mauro De Sanctis (University of Rome "Tor Vergata", Italy)

6G NTN and Joint Communication and Sensing

Flexible and Scalable Broadband Massive MIMO Testbed for Joint Communication and Sensing

Applications 187

Benjamin Nuss, Christian Maximilian Karle and Marc Neu (Karlsruhe Institute of Technology, Germany); Lukas Witte, Andre Scheder and Norman Franchi (Friedrich-Alexander-Universität Erlangen-Nürnberg, Germany); Martin Vossiek (LHFT, Friedrich-Alexander-Universität Erlangen-Nürnberg, Germany); Juergen Becker (Karlsruhe Institute of Technology, Germany); Thomas Zwick (Karlsruhe Institute of Technology (KIT), Germany)

User Subgrouping in Scalable Cell-Free Massive MIMO Multicasting Systems 193

Alejandro de la Fuente (Universidad Rey Juan Carlos, Spain); Guillem Femenias and Felip Riera-Palou (University of the Balearic Islands, Spain); Giovanni Interdonato (University of Cassino and Southern Lazio, Italy & CNIT, Italy)

Resilient New Space Communication Using Cognitive Radio for LEO Satellites..... 199

Rathinamala Vijay, Jens Freymuth, Alexander Burnicki, Enrico Stoll and Falko Dressler (TU Berlin, Germany)

RF/Optical High Data Rates Intra/Inter-Orbit Satellites Links in Future NTNs 205

Ernestina Cianca (University of Rome Tor Vergata, Italy); Tommaso Rossi (University of Rome "Tor Vergata", Italy); Marina Ruggieri (University of Roma Tor Vergata, Rome, Italy); Luca Oliviero (Scuola S. Anna, Italy); Sujit Basu (Scuola Superiore Sant'Anna of Pisa, Italy); Ernesto Ciaramella (Scuola Superiore Sant'Anna, Pisa, Italy); Mauro De Sanctis (University of Rome "Tor Vergata", Italy)

GNSS Independent Random Access Schemes for Beam Hopping Satellite Systems 210

Marius Caus (CTTC, Spain); Xavier Artiga (Centre Tecnològic de Telecomunicacions de Catalunya (CTTC/CERCA), Spain); Musbah Shaat (CTTC, Spain); Alessandro Guidotti (University of Bologna, Italy)
