

Inhaltverzeichnis

Key Note

- 1 **Differentiated Connectivity and Dependable Communication, Enablers in future Mobile Networks.....1**
Joachim Sachs (Ericsson)

Invited Talk

- 2 **Potentials and Challenges of Open Modular Private 5G Networks.....2**
Martin Kasparick (Airpuls)

Sitzung 1: Towards Beyond Cellular

- 3 **DT-BAN Design from a Modelling Perspective: A Use Case-Driven Approach3**
Rami Khaldi, Armin Lehmann, Ulrich Trick (Frankfurt Uni. of Applied Science); Bogdan Ghita (University of Plymouth)
- 4 **Mobility Management Enhancements in Non-Terrestrial Networks: A 3GPP Perspective9**
Shama Noreen, Ainur Daurembekova, Hans D. Schotten (RPTU Kaiserslautern); Reiner Stuhlfauth (Rohde&Schwarz)
- 5 **OpenLab “Beyond Cellular”: First Results and Planned Scenarios15**
Dennis Buchberger, Marwan Hammouda, Carsten Bockelmann, Dirk Wübben, Armin Dekorsy (Uni Bremen); Luka Kliewe (ZARM)

Key Note

- 6 **Terahertz Communication for ultra-high Data Rate Applications21**
Thomas Kürner (TU Braunschweig)

Sitzung 2: Towards 6G

- 7 **Comparative Analysis of Optimization and Machine Learning Methods for Beamforming and Power Control in Urban Environment22**
Parmida Geranmayeh, Eckhard Grass (Humboldt Uni Berlin)
- 8 **Reliability enhancements for mmW communication using IEEE 802.1CB28**
Junaid Ansari (Ericsson); Pierre Kehl, Robert Schmitt (Fraunhofer IPT)

Sitzung 3: Physical Layer Security

- 9 **Security and Privacy in Spectrum Access for Private Local Networks- State of the Art and Practice32**
Argianto Rahartomo, M. Dolores Pérez Guirao (Ostfalia HAW)
- 10 **Enhancing Physical Layer Key Generation Leveraging Reconfigurable Intelligent Surfaces ...38**
Wenqing Dai, Yorman Munoz, Christoph Lipps, Hans D. Schotten (DFKI); Sachinkumar B. Mallikarjun (RPTU Uni Kaiserslautern-Landau)

Sitzung 4: Future Networks

- 11 A Simulation Environment Predicting User Data Demand (UDD-Sim) in Upcoming Wireless Networks and Smart Cities.....44**
Matthias Rüb, Jan Herbst, Rudolf Schröder, Hans D. Schotten (DFKI)
- 12 Over-The-Top Resource Broker System for Split Computing.....50**
Ingo Friese, Jochen Klaffer, Mandy Galkow-Schneider (Deutsche Telekom); Sergiy Melnyk, Qiuheng Zhou, Hans Dieter Schotten (DFKI)
- 13 Machine Learning-based Multi-Step Ahead Handover Prediction for Stand-Alone 5G Systems in Maritime Environments56**
Alexandr Langolf, Stephan Pachnicke (Uni Kiel)

Key Note

- 14 6G - Architecting tomorrow: Design choices for 6G RAN and System
Christian Mannweiler (Nokia).....62**

Sitzung 5: Advances in Security and QoS

- 15 A5/1 is in the Air: Passive Detection of 2G (GSM) Ciphering Algorithms.....63**
Matthias Koch, Christian Nettersheim, Thorsten Horstmann, Michael Rademacher (Fraunhofer FKIE)
- 16 Survey on 5G Security in the Post-Quantum Era69**
Sai A. Madhavapeddi, Aritra Banerjee (Nokia); Wolfgang Kellerer (TU München)
- 17 Optimization of disaggregated 5G+ networks considering internal traffic and
QoS requirements78**
Ameya Joshi, Tuan Khai Nguyen, Thomas Bauschert (TU Chemnitz)

Sitzung 6: O-RAN Experience

- 18 open5Gcube: A Modular and Usable Framework for Mobile Network Laboratories84**
Thorsten Horstmann, Tobias Kremeyer, Michael Rademacher (HS Bonn Rhein-Sieg); Dominik Brunke, Julian Sturm, Hartmut König (ZITiS); Matthias Wilmes, Gunnar Schneider (FKIE)
- 19 O-RAN 7.2 Campus Network: An Experience Paper90**
Felix Kahmann, Julian Dreyer, Ralf Tönjes (HS Osnabrück)
- 20 Industrial O-RAN Deployment: Insights from Single-Cell Co-Channel gNB Analysis.....96**
Hubert Djuitcheu, Andrew Sergeev, Achim Autenrieth, Jörg-Peter Elbers (Adtran Networks SE); Jochen Seitz (TU Ilmenau)

Key Note

- 21 „The wireless seat belt”: Perspectives, challenges and requirements for 5G and 6G wireless com-
munications101**
Klaus David (Uni Kassel)

Sitzung 7: Networks for IoT and Robotics

22	An Alternative to SubGHz for LPWAN	107
	Sven Leugner, Horst Hellbrück (HS Lübeck)	
23	Weather-Aware LoRaWAN Sensor Localization	113
	Sudip Barua, Andreas Baumgartner (TU Chemnitz)	
24	Advancing Telerobotics: Evaluating ROS 2 in a Real-World Communication Test Environment	118
	Jan Peterhans, Jan Herbst, Eric Mittag, Matthias Rüb, Hans D. Schotten (DFKI)
