

## Table of contents

<b>01</b>	<b>Development and Analysis of Snubber Networks for the Primary Side Transistors of a Three-Phase, Galvanically Isolated, Single Stage Push-Pull Pulse Rectifier .....</b>	<b>1</b>
	Azad Al Hossein	
<b>02</b>	<b>DC Innovation Hub – A sustainable energy supply for the Weidmüller Academy .....</b>	<b>11</b>
	Johann Austermann	
<b>03</b>	<b>Connectors for DC Grids – Applications and Status Quo in Standardization .....</b>	<b>17</b>
	Andreas Beck	
<b>04</b>	<b>Direct Current Technology in German Industry: A Survey Study .....</b>	<b>25</b>
	Isabella Bianchini	
<b>05</b>	<b>Energy Saving Production using Lighting with 650 V DC .....</b>	<b>33</b>
	Ulrich Boeke	
<b>06</b>	<b>Versatile Test DC Microgrid for Lighting with Standard Components.....</b>	<b>37</b>
	Birthe Bittner	
<b>07</b>	<b>Novel Semiconductor Power Switch for LVDC Circuit Breakers .....</b>	<b>42</b>
	Sebastian Gerke	
<b>08</b>	<b>Optimized Circuit Breaker for DC Grids .....</b>	<b>51</b>
	Tobias Grote	
<b>09</b>	<b>Technical, Ecological and Economic Analysis of DC Underlay Grids for the Grid Integration of Charging Infrastructure .....</b>	<b>57</b>
	Fabian Herzog	
<b>10</b>	<b>Surge Protective Devices for DC-Systems.....</b>	<b>67</b>
	Jan Philipp Höpker	
<b>11</b>	<b>Evaluation of Power Quality Indicators in DC Microgrids using Intelligent Contactors .....</b>	<b>75</b>
	Christian Hoyer	
<b>12</b>	<b>Fault Analysis of LVDC Grid on the Hydrogen Research Platform WAVE-H2 .....</b>	<b>85</b>
	Jonas Knapp	
<b>13</b>	<b>Procedure for Operating Point Selection for Modular DC Fast Charging Systems .....</b>	<b>91</b>
	Maximilian Lammersen	
<b>14</b>	<b>Innovative Galvanically Isolated Rectifier.....</b>	<b>99</b>
	Sandor Benjamin Meyer	
<b>15</b>	<b>Gas-Free Relay Technology for DC Grids.....</b>	<b>107</b>
	Takuya Yamazaki	
<b>16</b>	<b>Clean MW Multi-pulse Rectification with Less Active Harmonic Filter Effort.....</b>	<b>115</b>
	Muhammad Attique Qamar	

<b>17</b>	<b>Impedance Modeling of a Three-Phase Dual-Active Bridge with a Supercapacitor Connected to the Primary Side.....</b>	<b>121</b>
	Pieris Sourkounis	
<b>18</b>	<b>A Practical Methodology for Short-Circuit Current Determination in Power Converter-Dominated DC Microgrids.....</b>	<b>130</b>
	Jonathan Wilson	
<b>19</b>	<b>Conceptualizing the protection properties of DC networks: Requirements engineering and system design .....</b>	<b>140</b>
	Fabian Witt
