

**Nomenclature concernant les machines
hydrauliques équipant les centrales
hydro-électriques**

**Nomenclature for hydroelectric powerplant
machinery**

CORRIGENDUM 1

Ces corrections ne concernent que le texte anglais.

Page 53

Instead of:

135 Thrust rotating ring (runner plate): Rotating ring which transfers the axial forces to the oil film and to the pads.

read:

135 Thrust rotating ring (runner plate): Rotating ring which transfers the axial forces to the oil film and to the pads.

– (Top cover): See head cover (057).

Page 54

Instead of:

– Turbine cover: Part of the housing (058) of an impulse turbine (Pelton).

– (Top cover): See head cover (057).

read:

137 Turbine cover: Part of the housing (058) of an impulse turbine (Pelton).

138 Turbine water inlet passage: Water passage to provide uniform flow at the inlet of a tubular turbine.
